Summary

I am a polyglot engineer and architect who has spent a decade building across AI, mobile, cloud and full-stack web. Today I lead technology at VAAS Intelligent Technology Services and at Cliniqally Healthtech, where I have shipped 100+ products for clients across India, the Gulf, Australia, Europe and the US — no buzzwords, just results teams can count on. Along the way I gave a TEDx talk, spoke on 150+ stages, and trained more than 2000 students.
